Claim Objections and Rejections

1. The objections to claims 8 and 21 are withdrawn in light of the cancellation.
2. The rejection of claims 5-8, 12, 21, and 25 under 35 U.S.C. 112, 1st and/or 2nd paragraph are withdrawn in light of their cancellation.

Allowable Subject Matter

3. Claims 1-4 and 59-72 are allowed.
4. The following is an examiner's statement of reasons for allowance: Applicants have developed a hybrid maize line, designated 38A24, seed of which has been deposited with the ATCC under Accession No. PTA-4265. 38A24 was produced by crossing maize inbred lines GE533340 and GE501400, which have been deposited with the ATCC under Accession Nos. PTA-4287 and PTA-1282, respectively. The deposits meet the conditions of 37 CFR 1.801-1.809, as indicated in the deposit statements on page 46 of the specification. Numerous morphological and physiological characteristics of 38A24 are taught in Table 1 of the specification. The prior art does not teach any maize lines that have the combination of traits shown in Table 1. Regarding claims 2 and 64: when the claimed part of the maize plant is a seed, it is interpreted to mean that the seed is that which produces the claimed plant. Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
